

(ii) *Discharge assessment reference date.* The discharge assessment reference date is the actual day that the first of either of the following two events occurs:

(A) The patient is discharged from the inpatient rehabilitation facility; or

(B) The patient stops being furnished Medicare Part A fee-for-service inpatient rehabilitation services.

(iii) *Exception to the general rule.* We may specify in the patient assessment instrument item-by-item guide and in other issued instructions, items that have a different discharge assessment time period to most appropriately capture patient information for payment and quality of care monitoring objectives.

(d) *Encoding dates.* The admission and discharge patient assessments must be encoded by the 7th calendar day from the completion dates specified in paragraph (c) of this section.

(e) *Accuracy of the patient assessment data.* The encoded patient assessment data must accurately reflect the patient's clinical status at the time of the patient assessment.

(f) *Patient assessment instrument record retention.* An inpatient rehabilitation facility must maintain all patient assessment data sets completed on Medicare Part A fee-for-service patients within the previous 5 years either in a paper format in the patient's clinical record or in an electronic computer file format that the inpatient rehabilitation facility can easily obtain.

[66 FR 41388, Aug. 7, 2001, as amended at 67 FR 44077, July 1, 2002; 68 FR 45699, Aug. 1, 2003]

§412.612 Coordination of the collection of patient assessment data.

(a) *Responsibilities of the clinician.* A clinician of an inpatient rehabilitation facility who has participated in performing the patient assessment must have responsibility for—

(1) The accuracy and thoroughness of the specific data recorded by that clinician on the patient's assessment instrument; and

(2) The accuracy of the assessment reference date inserted on the patient assessment instrument completed under §412.610(c).

(b) *Penalty for falsification.* (1) Under Medicare, an individual who knowingly and willfully—

(i) Completes a material and false statement in a patient assessment is subject to a civil money penalty of not more than \$1,000 for each assessment; or

(ii) Causes another individual to complete a material and false statement in a patient assessment is subject to a civil money penalty of not more than \$5,000 for each assessment.

(2) Clinical disagreement does not constitute a material and false statement.

§412.614 Transmission of patient assessment data.

(a) *Data format. General rule.* The inpatient rehabilitation facility must encode and transmit data for each Medicare Part A fee-for-service inpatient—

(1) Using the computerized version of the patient assessment instrument available from us; or

(2) Using a computer program(s) that conforms to our standard electronic record layout, data specifications, and data dictionary, includes the required patient assessment instrument data set, and meets our other specifications.

(3) *Exception to the general rule.* When the inpatient rehabilitation facility does not submit claim data to Medicare in order to be paid for any of the services it furnished to a Medicare Part A fee-for-service inpatient, the inpatient rehabilitation facility is not required to, but may, transmit to Medicare the inpatient rehabilitation facility patient assessment data associated with the services furnished to that same Medicare Part A fee-for-service inpatient.

(b) *How to transmit data.* The inpatient rehabilitation facility must—

(1) Electronically transmit complete, accurate, and encoded data from the patient assessment instrument for each Medicare Part A fee-for-service inpatient to our patient data system in accordance with the data format specified in paragraph (a) of this section; and

(2) Transmit data using electronic communications software that provides a direct telephone connection from the

§412.616

inpatient rehabilitation facility to the our patient data system.

(c) *Transmission dates.* The inpatient rehabilitation facility must transmit both the admission patient assessment and the discharge patient assessments at the same time to the our patient data system by the 7th calendar day in the period beginning with the applicable patient assessment instrument encoding date specified in §412.610(d).

(d) *Late transmission penalty.* (1) We assess a penalty when an inpatient rehabilitation facility does not transmit the required data from the patient assessment instrument to the our patient data system in accordance with the transmission timeframe in paragraph (c) of this section.

(2) If the actual patient assessment data transmission date is later than 10 calendar days from the transmission date specified in paragraph (c) of this section, the patient assessment data is considered late and the inpatient rehabilitation facility receives a payment rate that is 25 percent less than the payment rate associated with a case-mix group.

(e) *Exemption to being assessed a penalty for transmitting the IRF-PAI data late.* CMS may waive the penalty specified in paragraph (d) of this section when, due to an extraordinary situation that is beyond the control of an inpatient rehabilitation facility, the inpatient rehabilitation facility is unable to transmit the patient assessment data in accordance with paragraph (c) of this section. Only CMS can determine if a situation encountered by an inpatient rehabilitation facility is extraordinary and qualifies as a situation for waiver of the penalty specified in paragraph (d)(2) of this section. An extraordinary situation may be due to, but is not limited to, fires, floods, earthquakes, or similar unusual events that inflict extensive damage to an inpatient rehabilitation facility. An extraordinary situation may be one that produces a data transmission problem that is beyond the control of the inpatient rehabilitation facility, as well as other situations determined by CMS to be beyond the control of the inpatient rehabilitation facility. An extraordinary situation must be fully docu-

42 CFR Ch. IV (10–1–06 Edition)

mented by the inpatient rehabilitation facility.

§412.616 Release of information collected using the patient assessment instrument.

(a) *General.* An inpatient rehabilitation facility may release information from the patient assessment instrument only as specified in §482.24(b)(3) of this chapter.

(b) *Release to the inpatient rehabilitation facility's agent.* An inpatient rehabilitation facility may release information that is patient-identifiable to an agent only in accordance with a written contract under which the agent agrees not to use or disclose the information except for the purposes specified in the contract and only to the extent the facility itself is permitted to do so under paragraph (a) of this section.

§412.618 Assessment process for interrupted stays.

For purposes of the patient assessment process, if a Medicare Part A fee-for-service patient has an interrupted stay, as defined under §412.602, the following applies:

(a) *Assessment requirements.* (1) The initial case-mix group classification from the admission assessment remains in effect (that is, no new admission assessment is performed).

(2) When the patient has completed his or her entire rehabilitation episode stay, a discharge assessment must be performed.

(b) *Recording and encoding of data.* The clinician must record the interruption of the stay on the patient assessment instrument.

(c) If the interruption in the stay occurs during the admission assessment time period, the assessment reference date, completion date, and encoding date for the admission assessment are advanced by the same number of calendar days as the length of the patient's interruption in the stay.
